

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I strongly oppose the use of cellular phones while planes are in flight. I feel that there is not yet enough data on cell phone interference with airplane navigational instruments to warrant lifting the ban. Additionally, if the ban were lifted flight attendants would have to broker disagreements among passengers regarding appropriate use. Flight attendants have enough to do to maintain order and safety on flights -- they don't need another possible source of passenger conflict.

Please leave the current rules in effect.

Sincerely,

Beth Allen
